

From june-2019 | Page 7:

Q2(b)(i): Explain how the compression software will compress the image file.

Q2(b)(ii): Give the name of two other types of utility system software.

From june-2019 | Page 10:

Q3(b)(i): Explain how encryption helps to protect Hamish's documents.

From june-2022 | Page 11:

Q6(d)(i): Give two benefits of compressing the data before it is emailed.

Q6(d)(ii): Explain why lossy compression may not be appropriate to compress all of the student's files.

From june-2023 | Page 8:

Q3(c)(i): Identify the most suitable type of compression for the text document. Justify your choice.

Q3(c)(ii): Identify the most suitable type of compression for the image file. Justify your choice.

From june-2023 | Page 11:

Q5(b): State the need for utility software in a computer.

From june-2024 | Page 6:

Q3(b): Complete the description of utility system software using the words provided in the box. Not all words are used.

From nov-2019 | Page 7:

Q2(b)(i): Explain how the compression software will compress the image file.

Q2(b)(ii): Give the name of two other types of utility system software.

From nov-2019 | Page 10:

Q3(b)(i): Explain how encryption helps to protect Hamish's documents.

From nov-2020 | Page 10:

Q5(b)(i): Explain how defragmentation will change how the files and free space are arranged on Ali's hard disk.

Q5(b)(ii): After defragmentation, Ali's computer is able to access files faster. Explain why Ali's computer can access the files faster after defragmentation.

Q5(b)(iii): Give three additional examples of utility programs.

From nov-2021 | Page 3:

Q2(b)(i): State the purpose of utility system software.

Q2(b)(ii): Layla uses a backup utility. She performs both full and incremental backups. Explain the reasons why Layla performs both full and incremental backups.

From sample-paper | Page 9:

Q9(a): Explain how the restaurant's hard disc could have become fragmented.

Q9(b): Explain how defragmentation software could overcome the issue of the slow computer system.
