

From jun-2022 | Page 15:

Q5 (a) (i): Draw arrows on the field lines in Figure 11 to show the direction of the magnetic field.

From jun-2022 | Page 16:

Q5 (c) (i): Sketch, on Figure 12, the Earth's magnetic field outside and inside the Earth.

Q5 (c) (ii): State which part of the Earth generates its magnetic field.

From jun-2023 | Page 13:

Q5 (a): On Figure 8, draw the shape and direction of the magnetic field between the two magnets.

From june-2024 | Page 16:

Q5 (a) (i): On Figure 13, draw an arrow at point P and an arrow at point R to show the direction of the compass needle at each point.

Q5 (a) (ii): Explain why the arrows point in the directions you have drawn in part (i). You may draw on Figure 13 to help your answer.

From nov-2021 | Page 14:

Q5 (a) (i): Draw two rectangles on Figure 13 to show the positions of the two bar magnets. Label the N-pole and the S-pole of each magnet.

From nov-2021 | Page 15:

Q5 (a) (ii): Describe how the student should continue the investigation using just one plotting compass.

From specimen | Page 21:

Q6 (b): Which of these correctly shows the field inside the truck?
